Subject: RE: Diamond Alkali OU3 Bill for Collection

Sarah,

We have a few questions related to the migration of PREmis to the EQUIS database and Sharepoint. Based upon our review of the monthly progress reports, the migration work continued during this billing period through at least March 2012; however, the cost for this work was not included in the monthly reports. The progress reports also refer to CDM and Berger continually working through issues relating to the upload of data into EQUIS. Therefore:

- When CDM presented the plan to USACE/EPA to migrate PREmis to EQUIS and to Sharepoint, what was the approved budget for CDM and for Berger? What was the estimated duration of the migration project?
- Were there any amendments to the approved budget? If so, what is the current budget for the migration project?
- What were the problems or issues encountered during the migration project and can EPA estimate how they impacted costs?
- What are the total costs incurred for the migration project for both Berger and CDM?
- What portion of the migration costs were included in the current oversight bill?

Thanks,

Dawn
